EDUCATION

2020 - 2025
POSTS AND TELECOMMUNICATIONS INSTITUTE OF TECHNOLOGY IN HO CHI MINH CITY

- Information Technology

TECHNICAL SKILLS

- Programming: Java, JavaScript, Python
- Technology: Java Spring Boot, Spring Security, MySQL, Flask
- Git
- Data Structures and Algorithms, Object-Oriented Programming, Discrete Mathematics
- Have some experience with Design pattern

ABOUT ME

As a Web Developer Intern, I aim to learn and refine my skills through real-world projects. I enjoy working with Java to build web applications and am excited to contribute to a dynamic team. My goal is to gain hands-on experience, collaborate effectively, and develop efficient, user-friendly web solutions.

PROJECTS

Bookstore   11/2024 - PRESENT

- Description: Developed an e-commerce website for an online book store that allows users to browse, search, and purchase books. Integrated a machine learning model using Support Vector Machine (SVM) to provide personalized book recommendations based on user preferences
- Technology: Java Spring Boot, Spring Security, MySQL
- Link Github: https://github.com/Du380202/BookstoreAPI.git

Task Manager   04/2024 - 05/2024

- Description: Developed a web application for task management that enables users to create, organize, and track their tasks and projects. The application features task prioritization, due dates, notifications, and collaborative tools to improve productivity and project management. The system is designed using a microservices architecture to ensure scalability and flexibility, providing a seamless experience across both web and mobile platforms
- Technology: Java Spring Boot, SQL, Android Studio, HTML, CSS, JavaScript, Docker
- Link Github: https://github.com/Du380202/TaskManager.git
